Phone number (ES): +34 625 957764

## EXPERIENCE

July 2013 - Now

### Web Designer Freelance

I work on Web and UX design projects for small and medium business as well as agencies. I have been using technologies such as Wordpress, Django and the HTML, CSS and JS stack.

July 2012 - July 2013

### Communication Manager ESN AISBL, Brussels, Belgium

I was in charge of all the official communication channels of the organization, including web sites, social media channels and publications, where I was in charge of the creative direction and general strategy.

As an International Board member I was also in charge of several projects at EU level. My responsibilities included the development of the general strategy and the management of the various international teams.

I was also in charge of the relations with other organizations and commercial partners, such as NewYorker, Airbnb and Brussels Airlines.

May 2011 - July 2012

### National Representative ESN España, Spain

I was the main contact point between both levels of the organization acting as an information bridge. I had the chance to attend to more than 10 meetings at international level representing the Spanish network in cities such as Nancy, France, Siena in Italy and Brussels, Belgium.

June 2009 - December 2009

### Junior Developer Internship CexC, Valladolid, Spain

I worked in web development projects in Seam and Drupal under the Scrum methodology.

September 2008 - July 2012

### President/Vicepresident ESN Valladolid, Valladolid, Spain

I was in charge of event and communication management and the IT resources including mailing lists, user accounts and the website.

I coordinated the different working teams, and I assured a proper knowledge transfer between to the new members of the organization.

## EDUCATION

2013 - 2015

### MSc in Interaction Design (60 ECTS) Malmö University, Malmö, Sweden

I learned about user research and testing, concept development and prototyping. Among my teachers there were professionals as David Cuartielles from the Arduino project and Jonas Löwgreen, Director of the Program.

2011 - 2015

### Degree in Computer Science (+60 ECTS) Valladolid University, Valladolid, Spain

Project Management, Distributed systems, User-computer Interaction.

2007 - 2008

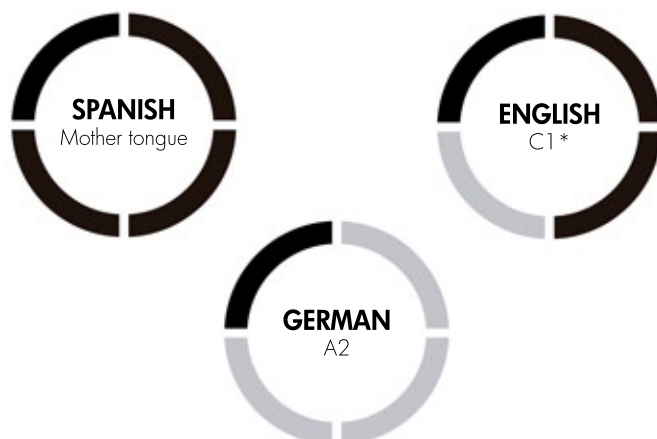

### Erasmus in Duisburg-Essen Universität Duisburg-Essen Universität, Duisburg, Germany

2003 - 2010

### BSc in Computer Science, Systems Speciality (180 ECTS) Valladolid University, Valladolid, Spain

OS, Programming, Mathematics, Electronics, Statistics, Computer Networks, Software Design and Data bases.
